

/ HDPE conduit and microduct solutions, sourced and manufactured in the USA.

In compliance with the **Build America, Buy America Act**, Blue Diamond conduit, microduct, and custom products are manufactured in multiple facilities across the United States, and we acquire all raw materials from domestic sources.

The Build America, Buy America Act strengthens Made in America Laws and will bolster America's industrial base, protect national security, and support high-paying jobs. The Act requires that no later than May 14, 2022—180 days after the enactment of the IIJA—the head of each covered Federal agency shall ensure that “none of the funds made available for a Federal financial assistance program for infrastructure, including each deficient program, may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States.”
